

JOHN CHIANG California State Controller

June 3, 2014

Scott Thomason, Interim Vice President of Administrative Services Siskiyou Joint Community College District 800 College Avenue Weed, CA 96094

Dear Mr. Thomason:

The State Controller's Office reviewed the costs claimed by the Siskiyou Joint Community College District for the legislatively mandated Integrated Waste Management (IWM) Program (Chapter 1116, Statutes of 1992; and Chapter 764, Statutes of 1999) for the period of July 1, 2001, through June 30, 2005. We conducted our review under the authority of Government Code sections 12410, 17558.5, and 17561. Our review was limited to ensuring that offsetting savings were properly reported in accordance with program requirements.

The district claimed \$106,951 for the mandated program. Our review found that \$66,534 is allowable (\$73,926 less a \$7,392 penalty for filing late claims) and \$40,417 is unallowable. The costs are unallowable because the district did not report any offsetting savings realized as a result of implementing its IWM plan, as described in the attached Summary of Program Costs, Summary of Offsetting Savings Calculations, and the Finding and Recommendation. The State made no payments to the district. The State will pay \$66,534, contingent upon available appropriations.

If you have any questions, please contact Jim L. Spano, Chief, Mandated Cost Audits Bureau, by phone at (916) 323-5849.

Sincerely,

Original signed by

JEFFREY V. BROWNFIELD, CPA Chief, Division of Audits

¹ See Attachment 3, Finding and Recommendation.

² See Attachment 2, Summary of Offsetting Savings Calculations.

³ The district filed its fiscal year (FY) 2001-02 through FY 2004-05 initial reimbursement claims after the due date specified in Government Code section 17560. Pursuant to Government Code section 17561, subdivision (d)(3), the State assessed a late filing penalty equal to 10% of allowable costs, with no maximum penalty (for claims filed on or after September 30, 2002).

Attachment 3— Finding and Recommendation July 1, 2001, through June 30, 2005

FINDING— Unreported offsetting savings

The district did not report any offsetting savings on its mandated cost claims for the review period. We found that the district realized savings of \$33,025 from implementation of its integrated waste management (IWM) plan.

We informed Scott Thomason, Interim Vice President of Administrative Services, of the review finding on May 12, 2014. Lori Luddon, Recycling Coordinator, responded via email on May 29, 2014, that the district has no questions regarding the finding.

The following table summarizes the unreported offsetting savings by fiscal year:

Fiscal Year	Offsett Savin Repor	gs	Offsetting Savings Realized		Review ljustment
2001-02	\$		\$	(7,347)	\$ (7,347)
2002-03		_		(8,219)	(8,219)
2003-04		_		(7,470)	(7,470)
2004-05				(9,989)	 (9,989)
Total	\$		\$	(33,025)	\$ (33,025)

On March 25, 2004, the Commission on State Mandates (CSM) adopted the statement of decision for the IWM Program. The CSM determined that Chapter 1116, Statutes of 1992; and Chapter 764, Statutes of 1999, imposed upon community college districts a state mandate reimbursable under Government Code section 17561, commencing July 1, 1999.

The program's parameters and guidelines establish the state mandate and define the reimbursement criteria. The CSM adopted the parameters and guidelines on March 30, 2005.

In March 2007, the Department of Finance and the IWM Board filed a petition for a Writ of Mandate requesting the CSM to issue new parameters and guidelines that give full consideration to the community colleges' cost savings (e.g., avoided landfill disposal fees) and revenues (from recyclables) by complying with the test claim statutes. The Judgment and a Writ of Mandate were issued on June 30, 2008, ordering the CSM to amend the parameters and guidelines to require community college districts to identify and offset from their claims cost savings realized as a result of implementing their plan.

On September 26, 2008, the CSM amended the parameters and guidelines to the original period of reimbursement because the court's decision interprets the test claim statutes as a question of law.

In compliance with Government Code section 17558, the State Controller's Office issues claiming instructions to assist community college districts in claiming mandated-program reimbursable costs.

The parameters and guidelines (section VIII. Offsetting Cost Savings) state:

Reduced or avoided costs realized from implementation of the community college districts' Integrated Waste Management Plans shall be identified and offset from this claim as cost savings, consistent with the direction for revenue in Public Contract Code sections 12167 and 12167.1.

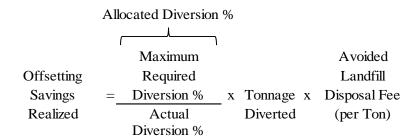

Public Contract Code sections 12167 and 12167.1 require agencies in state-owned and state-leased buildings to deposit all revenues from the sale of recyclables into the IWM Account in the IWM Fund. The revenues are to be continuously appropriated to the Board for the purpose of offsetting recycling program costs. For the review period, the district did not remit to the State the savings realized from implementation of its IWM plan.

Offsetting Savings Calculation

The CSM's Final Staff Analysis of the proposed amendments to the parameters and guidelines (Item #8–CSM hearing of September 26, 2008) states:

... cost savings may be calculated from the annual solid waste disposal reduction or diversion rates that community colleges must annually report to the Board pursuant to Public Resources Code section 42926, subdivision (b)(1).

To compute the savings amount, we multiplied the allocated diversion percentage by the tonnage diverted, and then multiplied the total by the avoided landfill disposal fee, as follows:

This calculation determines the cost that the district did not incur for solid waste disposal as a result of implementing its IWM plan. The offsetting savings calculation is presented in Attachment 2 – Summary of Offsetting Savings Calculations.

Allocated Diversion Percentage

Public Resource Code 42921 requires districts to achieve a solid waste diversion percentage of 25% beginning January 1, 2002, and a 50% diversion percentage by January 1, 2004. The parameters and guidelines

state that districts will be reimbursed for all mandated costs incurred to achieve these levels, without reduction when they fall short of stated goals, but not for amounts that exceed these state-mandated levels. Therefore, we allocated the offsetting savings to be consistent with the requirements of the mandated program.

For calendar years 2001 through 2005, we used the actual diversion percentage reported by the district to CalRecycle (formerly the IWM Board) pursuant to Public Resources Code section 42926, subdivision (b)(1).

Tonnage Diverted

The tonnage diverted is solid waste that the district recycled, composted, and kept out of a landfill.

For calendar years 2001 through 2005, we used the actual tonnage diverted, as reported by the district to CalRecycle pursuant to Public Resources Code section 42926, subdivision (b)(1).

Avoided Landfill Disposal Fee (per Ton)

The avoided landfill disposal fee is used to calculate realized savings because the district no longer incurs a cost to dispose of the diverted tonnage at a landfill. For each fiscal year in the review period, we used the statewide average disposal fee provided by CalRecycle. The district did not provide any documentation supporting a different disposal fee.

Recommendation

The IWM was suspended in the fiscal year (FY) 2011-12 through FY 2013-14 Budget Acts. Further, commencing in FY 2012-13, the district elected to participate in a block grant program, pursuant to Government Code section 17581.7, in lieu of filing annual mandated cost claims. If the program becomes active and if the district chooses to opt out of the block grant program, we recommend that the district offset all savings realized from implementation of its IWM plan.
